GITHUB LINKEDIN PORTFOLIO

Samta Vihar, MukundPur, Delhi, India

SUMMARY

I am pursuing a B. Sc in Software Development from Tata Institute of Social Science, Mumbai. I am passionate about software development, and I am currently interning at CodSoft, where I secured the position through LinkedIn. Previously, I interned at Virtual Education Trust Company, gaining foundational skills. I have learned and worked with technologies like **HTML, PHP, CSS, Bootstrap, JQuery, Java, JavaScript, PostgreSQL, MERN, MySQL**, and version control tools like **Git and GitHub**. I am eager to apply my knowledge and continue growing in the field of software development.

EDUCATION

Tata Institute of Social Science, Mumbai

Bachelor/BSc in Software Development
2022 – 2025

Govt. SarvodayaBal Vidyalaya, Burari, Delhi

12th -> Science Stream
CBSE BORARD 2022

10th Govt. Boys Secondary School Burai Delhi

CBSE BORARD 2020

SKILLS

- **Tools:** Git, GitHub, npm, yarn, Postman, Vite.
- **Frameworks:** React Js, Node Js, Express Js, CodeIgniter.
- **DB Languages:** MongoDB, Mysql, Firebase, PostgreSQL.
- **Languages:** Java, C++, JavaScript.
- **CSS Frameworks:** Tailwind, Bootstrap, MaterialUI
- **Development Tools:** Visual Studio Code, NetBeans, Notepad++/Notepad

PROJECTS

- **iNotebook:-** Notes to store in clouds with user credentials.
Technologies: React.js, Node.js, MongoDB, Bootstrap
- **NewsMonkey:-** News Top Headlines using News API.
Technologies: ReactJs, Bootstrap 5, News API used to fetch data
- **Sai-Prerna:-** Sai-Prerna Trust takes care of the old.
Technologies: HTML, CSS, JavaScript, CodeIgniter, Apache MySQL

WORK EXPERIENCE

Python with Tkinter GUI in OJT (On Job Training)

Virtual Education Trust | June 2023 – July 2023

Building GUI Applications and Management Systems in Tkinter (Python)

- Developed a Gas Agency Management System using Python and Tkinter GUI, enhancing user experience with intuitive design and functionality.
- Gained hands-on experience in building and deploying a complete application from scratch, demonstrating strong problem-solving and project management skills.
- Strengthened programming proficiency in Python, with a focus on GUI development and application logic integration.

Web Development Internship

Virtual Education Trust | Feb 2024 – April 2024

Web Development Intern with Expertise in CodeIgniter and Single-Page Applications

- Gained experience in managing routes, understanding file structures, and implementing the MVC model within the CodeIgniter framework.
- Built a single-page website for Sai-Prerna using the CodeIgniter framework, demonstrating strong skills in web development and design.
- Developed a comprehensive understanding of web application development, enhancing efficiency and performance through best practices and optimized code.

Web Development Internship

CodSoft | July 2024 – Aug 2024

Web Development Intern with Expertise in CodeIgniter and Single-Page Applications

- **Diverse Project Experience:** Participated in multiple projects across various languages and technologies, including Java, Python, C++, AI, ML, web development, and Android development, gaining a well-rounded skill set and versatile coding proficiency.
